BATCH NO.: 1E022A

HPB VC 2
SINGAPORE

09 JUN 2021

BATCH NO.: EY5456

HPB VC 2
SINGAPORE

All recommended doses of the COVID-19 vaccine must be completed to achieve the best possible protection, and for the protection to be as long-lasting as possible. The vaccine has been assessed to be safe for use. However, just like other vaccines, you may experience some side effects such as headache, body aches, tiredness and soreness at the injection site, or fever. These usually get better after 1-3 days and may be a sign that your immune system is making a protective response against COVID-19. The vaccination records are derived from the computerised records of the National Immunisation Registry.
